NOTES TO FINANCIAL STATEMENTS

ms are based on illustrations taken from the NAIC Annual Stateme

1. Summary of Significant Accounting Policies

a. Accounting Practices

The accompanying financial statements of Triad Guaranty Assurance Corporation, In Rehabilitation ("the Company") have been prepared in conformity with accounting practices prescribed or permitted by the National Association of Insurance Commissioners (NAIC) and the State of Illinois.

On December 11, 2012, Andrew Boron, Director of Insurance ("Director") of the State of Illinois entered a Court Order in Cook County Illinois to place Triad Guaranty Insurance Corporation and its subsidiary, Triad Guaranty Assurance Corporation ("the Company") in rehabilitation, and the Director was affirmed as Receiver. By Illinois law, the Director may appoint a Special Deputy Receiver to administer the receivership. By power of attorney, Paul A. Miller is the Special Deputy Receiver to the Director of Insurance, and the Office of the Special Deputy Receiver handles the day-to-day administration of the liquidation proceedings under the direction of the Special Deputy, subject to the ultimate authority of the Director and to court supervision. Among other things, the Rehabilitator's statutory authority includes authority to:

- Collect, receive and take exclusive custody and control of TGIC's and the Company's assets, its contractual and other legal rights and interest, and its books and records; Conserve, hold and manage the Company's assets for the benefits of its creditors; Bring litigation to protect or recover assets; File a plan of Rehabilitation with the Court for approval; and Pay all administrative expenses incurred during the course of rehabilitation from the assets of TGIC and the Company.

b. Use of Estimates

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

c. Accounting Policies Premiums are

niums are earned over the terms of the related reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with reinsuring insurance business are charged to operations as incurred.

- In addition, the company uses the following accounting policies:
 The Company has no short-term investments.
 Bonds not backed by other loans are carried at amortized cost using the interest method.
 The Company has no common stocks.
 The Company has no preferred stocks.
 The Company owns no Mortgage Loans.
 Loan-backed securities are stated at amortized cost or the lower of amortized cost or fail

- Loan-backed securities are stated at amortized cost or the lower of amortized cost or fair market value. The Company uses the prospective method to value all securities, including backed and asset backed securities.
- The Company has no subsidiaries
- The Company has no ownership in joint ventures.
- The Company has no derivatives.
- (a) Anticipated investment income is not utilized as a factor in premium deficiency calculations.
 (11) Unpaid losses and loss adjustment expenses include an amount determined from frequency and severity factors applied to each delinquent loan that the Company refers to as case reserves, and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates, and the ultimate liability may be in excess of or less than the amount provided. Management periodically reviews and refines its assumptions and estimates with any adjustments reflected in the period adjustments are
- (12) The Company has not modified its capitalization policy from the prior period.
 (13) The Company has no pharmaceutical rebate receivables.

inting Changes and Corrections of Errors

The Company provides reserves for losses on a quota share basis with its parent, Triad Guaranty Insurance Corporation, In Rehabilitation. Effective July 1, 2011, the Company and its parent elected to change the basis for establishing reserves, and began providing reserves on loans in default two months or more, loans in foreclosure, and real estate owned. Previously, reserves were established on loans in default four months or more, loans in foreclosure, and real estate owned.

In accordance with SSAP No. 3, paragraph 3, a change in the method of calculating the reserve for losses is treated as a change in accounting principle. The Company adopted this change on a prospective basis; accordingly, the prior year financial statements have not been restated. The Company recorded the cumulative effect of the change by restating the reserves as of the first day of 2011 as if the Company had previously utilized the new method. The impact of adoption increased reserves and decreased surplus by \$364,201 as of January 1, 2011.

3. Business Combinations and Goodwill

The Company has not entered into any business combinations and has no goodwill.

Discontinued Operations

The Company has no discontinued operations.

- The Company does not have any mortgage loan investments
- The Company does not have any restructured debt investments.
- C. The Company does not have any reverse mortgage investments.
- D. Loan-Backed Securities
 - (1) The Company uses a proprietary model for loss assumptions and widely accepted models for prepayment assumptions in valuing mortgage-back asset-backed securities with inputs from major third party data providers. The models combine the effects of interest rates, volatility, and pre-payment speeds based on various scenario (Monte Carlo) simulations with resulting effective analytics (spreads, duration, convexity) and cash-flows on a monthly basis. Model assumptions are specific to asset class and collateral types and are regularly evaluated and adjusted where appropriate
 - An OTTI is recognized on any security whose market value is less than its amortized cost because the Company may not have the ability to hold the security for a period of time sufficient to recover the amortized cost basis.
 - The Company does not have investments where an OTTI was recognized to the discounted cash flows because the company does not expect to recover the amortized cost basis of
 - (4) The Company does not have investments held showing Unrealized Losses Greater and Less than 1 year.
 - There are a number of factors that are considered in determining if there is not an other-than-temporary-impairment on an investment, including but not limited to, debt burden, credit ratings, sector, liquidity, financial flexibility, company management, expected earnings and cash flow stream, and economic prospects associated with the investment.
- The Company does not have any Repurchase Agreements and/or Securities Lending Transactions
- F. The Company does not have investments in real estate.
- G. The Company does not have investments in low-income housing tax credits.

Joint Ventures, Partnerships and Limited Liability Companies

The Company does not have any investments in joint ventures, partnerships or limited liability companies

No amount of due and accrued investment income was excluded from surplus.

Subprime Mortgage Exposures

This disclosure is provided pursuant to Note 20 to SSAP No. 1-Disclosure of Accounting Policies, Risks and Uncertainties, and Other Disclosures ("SSAP No. 1") adopted on December 2, 2007. This disclosure relates specifically to "subprime mortgage" related risk exposure and related risk management practices of Triad Guaranty Assurance Corporation, In Rehabilitation (the "Company"), which is a reinsurer of private mortgage guaranty insurance coverage on residential mortgage loans in the United States through its parent, Triad Guaranty Insurance Corporation, In Rehabilitation (TGIC).

For purposes of this disclosure, the Company defines the credit quality of its portfolio based on criteria established by TGIC which are primarily based upon FICO or credit scores. The Company has four different classifications of credit quality of the loans that we reinsure: 1) subprime, 2)A-minus, 3)Alt-A, and 4)prime. Subprime is defined as FICO scores less than 575. A-minus is defined as FICO scores greater than or equal to 575 and less than or equal to 619. Alt-A is defined as loans with FICO scores equal to or greater than 620 written with reduced or no documentation. Prime loans are all loans that are not subprime, A-minus or Alt-A. At December 31, 2010, the parent, TGIC had the following insurance in force amounts and percentages based on the credit classifications described above.

Credit Quality Classification	Insurance In Force	Percentage
Prime	\$17,100,533,168	73.0%
Alt-A	5,509,025,898	23.5%
A-Minus	723,637,606	3.1%
Subprime	103,803,689	0.4%
Total	\$23,437,000,361	100.0%

In addition to the different classifications of the insurance portfolio based upon credit quality noted above, TGIC and the Company have identified other characteristics that include Examples of these increased risk characteristics would include loans that have the potential for negative amortization (e.g. pay option arms), loans with a LTV ratio greater than 95%, and loans made on second homes and condominiums.

The Company has no direct exposure to mortgage loans except as described in 1. above as a private mortgage guaranty insurance reinsurer.

Direct exposure through other investments.

21. Other Items (continued)

Underwriting exposure to subprime mortgage risk through Mortgage Guaranty or Financial Guaranty insurance coverage.

As a reinsurer for TGIC, the Company's private mortgage guaranty reinsurance business faces significant direct and indirect exposure to subprime mortgage risk. If the homeow defaults, private mortgage insurance provided by TGIC reduces and, in some instances, eliminates the loss to the insured lending institution. The Company has direct exposure in providing mortgage insurance reinsurance coverage on subprime mortgage loans, and it has indirect exposure to the extent its reinsurance on other mortgage loans is affected by conditions in the housing and mortgage markets that result from the performance of subprime mortgages, whether or not insured under mortgage insurance coverage. If the homeowner

Company is operating in run-off and is no longer issuing mortgage insurance policies

- The Company believes that mortgage credit risk was materially affected by the following underwriting factors:

 1. the borrower's credit strength, including the borrower's credit history, debt-to-income ratios, and cash reserves; and

 2. the loan product, which includes the ratio of the original principal balance of the loan to the value of the property at origination (the LTV"), the type of loan instrument(including whether the instrument provides for fixed or variable payments and the amortization schedule), the type of property, the purpose of the loan, and the borrower's documentation for the loan.

Excluding other factors, claim incidence increases for loans with lower FICO credit scores compared to loans with higher FICO credit scores; for reduced documentation loans compared to loans with full underwriting documentation; for loans with higher LTV ratios compared to loans with lower LTV ratios; for adjustable rate mortgage loans during a prolonged period of rising interest rates compared to fixed rate loans in such a rate environment; for loans that permit the deferral of principal amortization compared to loans that require principal amortization with each monthly payment; for loans in which the original loan amount exceeds the conforming loan limit compared to loans below such limit; and for cash out refinance loans compared to rate and term refinance loans.

There are also other types of loan characteristics relating to the individual loan or borrower which affect the risk potential for a loan, including the origination practices of the lender and the condition of the housing market in the area in which the property is located. The presence of a number of higher-risk characteristics in a loan materially increases the likelihood of a claim on such a loan unless there are other characteristics to lower the risk.

The reinsurance premiums vary according to the risk and premiums charged by TGIC, not only on the basis of the level of coverage provided, but also on the perceived risk of a claim on the insured loan and, thus, take into account the LTV, the loan type (fixed payment versus non-fixed payment) and mortgage term, the location of the borrower's credit score within a range of credit scores, and whether the loan is a reduced documentation loan.

TGIC charges higher premium rates to reflect the increased risk of claim incidence that it perceives is associated with certain types of loans, although not all higher risk characteristics are reflected in the premium rate. There can be no assurance that TGIC's premium rates adequately reflect the increased risk, particularly in a period of economic recession or decline in housing values.

To recognize the liability for unpaid losses related to outstanding reported defaults (known as the "default inventory") from TGIC, the Company establishes loss reserves, representing the estimated percentage of defaults which will ultimately result in a claim (known as the "claim rate") and the estimated severity of the claims which will arise from the defaults included in the default inventory (known as the "severity rate") based upon the information supplied by TGIC. In accordance with industry accounting practices, neither the Company nor TGIC establish loss reserves for future claims on insured loans which are not currently in default.

Through TGIC, the Company also establishes reserves to provide for the estimated costs of settling claims, including legal and other fees, and general expenses of ement process ("loss adjustment expenses"), and for losses and loss adjustment expenses from defaults which have occurred, but which have not yet been reported to TGIC ("IBNR")

The Company's reserving process through TGIC is based upon the assumption that past experience provides a reasonable basis for estimating future events. However, estimation of loss reserves is inherently judgmental. Conditions that have affected the development of the loss reserves in the past may not necessarily affect development patterns in the future, in either a similar manner or degree.

SSAP No. 1 requires disclosures illustrating exposure related to the subprime mortgage sector and specifically requires disclosure of the related losses paid, losses incurred, case reserves, and IBNR reserves for subprime loans for the current year. The Company's reserving process is not designed to segregate prime loan reserves from subprime loan reserves, as defined in this disclosure.

To provide reserve and incurred information required by SSAP No. 1, the Company has calculated subprime related case and IBNR reserves for its primary insurance, using the proportionate number of subprime default inventory compared to the total number of default inventory and multiplied that factor by the Company's total case and IBNR reserves, to arrive at subprime case and IBNR reserves as shown in the tables below. The information shown below is based upon the TGIC amounts reinsured to the Company.

The total reserves based upon the credit classifications of TGAC as of December 31, 2011 were as follows:

		As a % of total
Prime	\$3,965,513	62.6%
Alt-A	1,460,195	23.0%
A-Minus	787,398	12.4%
Subprime (A)	<u>126,587</u>	2.0%
Total	\$6,339,693	100%

Losses and reserves related as of December 31, 2011were as follows:

Losses paid	<u>Total</u> \$3.927.598	<u>Subprime</u> \$98.851	Subprime as a % of total 2.5%
	*	* /	
Incurred losses	2,833,312	47,447	1.7%
Case reserves	6,339,693	120,587	2.0%
IBNR reserves	210,741	0	0.0%

(A) For purposes of this disclosure, a "subprime mortgage is defined as a mortgage loan with a FICO credit score below 575. IBNR reserves include unallocated LAE based on direct case reserves

Events Subsequent

The Company is unaware of any subsequent event that would have a material effect on its financial condition.

- The Company does not have any unsecured aggregate recoverable for losses, paid and unpaid including IBNR, loss adjustment expenses and unearned premium with any individual reinsurers, authorized or unauthorized, that exceeds 3% of the Company's policyholder surplus
 The Company does not have any reinsurance recoverable in dispute.

25. Changes in Incurred Losses and Loss Adjustment Expenses

Reserves as of December 31, 2011 were \$7,753,556. As of December 31, 2012 \$3,475,627 has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$4,365,599 as a result of re-estimation of unpaid losses and loss adjustment expenses adjusted for paid claims during 2011 relating to 2010 and prior. Therefore, there has been a \$87,670 unfavorable prior-year development from December 31, 2011 to December 31, 2012. Reserves are established using estimated claims rates (frequency) and claim amounts (severity) to estimate ultimate losses. Management periodically reviews the loss reserve process and refines its methodology as appropriate. The reserving process gives effect to current economic conditions and profiles delinquencies by such factors as policy year, originations within bulk and flow channels, and the number of months a policy has been in default. The Company does not adjust premiums based on claim activity.

26. Intercompany Pooling Arrangements

The Company has no intercompany pooling arrangements.

27. Structured Settlements

30. Premium Deficiency Reserves

The Company has no premium deficiency reserves.

31. High Deductibles

The Company had no reserve credit recorded for high deductibles on unpaid claims.

32. Discounting of Liabilities for Unpaid Losses or Unpaid Loss Adjustment Expenses

The Company does not discount unpaid losses or unpaid loss adjustment expenses.

33. Asbestos/Environmental Reserves

The Company has no known potential exposure to asbestos and/or environmental claims.

34. Subscriber Savings Accounts

The Company has no subscriber savings accounts.

35. Multiple Peril Crop Insurance

The Company has no multiple peril crop insurance exposure.

36. Financial Guaranty Insurance

The Company has no financial guaranty insurance exposure.
